

Product Information – June 2007

Description

An application tape based on a special impregnated paper with high tensile strength. Suitable for transfer of self adhesive letters and logo products from cast and calandered vinyls by CAD/CAM methods

Applications

- . Low tack masking
- . Sign / vehicle lettering industries

Technical Details

Total Thickness	0.11mm
Backing Thickness	
Tensile Strength	24 N/cm
Elongation	4%
Temperature	
Steel Adhesion	1.9 N/cm
Colours	

Note

Unless otherwise indicated, the figures above are average values and should not be treated at face value for specification purposes. The Company reserves the right to improve products, and any change in specification will result in a re-issue of the information sheet. Customers should satisfy themselves that the tape is suitable for their requirements whether after such modification or otherwise. Please check that you have the latest issue of the information sheet. All slitting and length tolerances are to British Standards, but other tolerances are available by request.
