Production Information – September 2007

Description

A double sided cotton cloth tape coated with a clear hot melt rubber plasticiser free adhesive system. Brown liner. High tack and extremely conformable on irregular surfaces.

Applications

- . Bonding of rigid PVC materials
- . Bonding of abrasive materials

Technical Details

Total Thickness	0.30mm
Backing Thickness	-
Tensile Strength	38 n/cm
Elongation	5%
Temperature	-10°C to +50°C
Steel Adhesion	11 n/cm
Dielectric Strength	-
Colours	White

Note

Unless otherwise indicated, the figures above are average values and should not be treated at face value for specification purposes. The Company reserves the right to improve products, and any change in specification will result in a re-issue of the information sheet. Customers should satisfy themselves that the tape is suitable for their requirements whether after such modification or otherwise. Please check that you have the latest issue of the information sheet. All slitting and length tolerances are to British Standards, but other tolerances are available by request.
