## Product Information – July 2007

### Description

A fine structured crepe paper tape coated with a thermosetting rubber adhesive system good temperature and chemical resistance. UL Approved

### Applications

- Wire and coil banding
- Transformer outer wrap

### Technical Details

Total Thickness	0.185mm
Backing Thickness	0.125mm
Tensile Strength	10kg/25mm
Elongation	10%
Temperature	105°C (Class A)
Steel Adhesion	1000 grms / 25mm
Dielectric Strength	1.8 KV
Colour	Natural

### Note

Unless otherwise indicated, the figures above are average values and should not be treated at face value for specification purposes. The Company reserves the right to improve products, and any change in specification will result in a re-issue of the information sheet. Customers should satisfy themselves that the tape is suitable for their requirements whether after such modification or otherwise. Please check that you have the latest issue of the information sheet. All slitting and length tolerances are to British Standards, but other tolerances are available by request.
