

**4162**

**Production Information – September 2007**

**Description**

A clear solvent acrylic adhesive transfer tape reinforced with glass fibre particles on a brown paper liner. Roll size 6mm x 16.5m. Reverse wound for use with dispensers.

**Applications**

- . Uses requiring high adhesive coat weight
- . Print finish operations.
- . Art and craft applications
- . Fixing of labels and photographs

**Technical Details**

Total Thickness	0.129mm
Backing Thickness	-
Tensile Strength	-
Elongation	-
Temperature	-
Steel Adhesion	14n/cm
Dielectric Strength	-
Colours	-

**Note**

Unless otherwise indicated, the figures above are average values and should not be treated at face value for specification purposes. The Company reserves the right to improve products, and any change in specification will result in a re-issue of the information sheet. Customers should satisfy themselves that the tape is suitable for their requirements whether after such modification or otherwise. Please check that you have the latest issue of the information sheet. All slitting and length tolerances are to British Standards, but other tolerances are available by request.
