## Production Information – September 2007

### Description

A double sided white PVC film tape coated with a clear solvent acrylic adhesive system. Excellent resistance to plasticiser migration and good conformability to rough or uneven surfaces. Brown paper liner.

### Applications

- . Furniture trim assembly
- . Lamination
- . Cable trunking
- . Roller blind assembly

### Technical Details

Total Thickness	0.22mm
Backing Thickness	-
Tensile Strength	52n/cm
Elongation	100%
Temperature	-40 to 80°C
Steel Adhesion	10.5 n/cm
Colour	White

### Note

Unless otherwise indicated, the figures above are average values and should not be treated at face value for specification purposes. The Company reserves the right to improve products, and any change in specification will result in a re-issue of the information sheet. Customers should satisfy themselves that the tape is suitable for their requirements whether after such modification or otherwise. Please check that you have the latest issue of the information sheet. All slitting and length tolerances are to British Standards, but other tolerances are available by request.
