

RF10

Production Information – September 2007

Description

High Strength reinforced mono directional tape featuring fibreglass strands laminated to a clear BOPP film and coated with a synthetic rubber resin adhesive (Hot melt)

Applications

- . Bundling
- . Strapping
- . Carton Sealing

Technical Details

Total Thickness	0.135mm
Backing Thickness	0.03mm
Tensile Strength	420n/cm
Elongation	10%
Temperature	0°C to 60°C
Steel Adhesion	5 n/cm
Dielectric Strength	
Colours	Clear

Note

Unless otherwise indicated, the figures above are average values and should not be treated at face value for specification purposes. The Company reserves the right to improve products, and any change in specification will result in a re-issue of the information sheet. Customers should satisfy themselves that the tape is suitable for their requirements whether after such modification or otherwise. Please check that you have the latest issue of the information sheet. All slitting and length tolerances are to British Standards, but other tolerances are available by request.
