

<b>W912</b>
-------------

**Production Information – September 2007**

**Description**

A double sided white PE closed cell foam tape coated with an emulsion acrylic adhesive system combined to a white paper liner. Foam density 100kg/m<sup>3</sup>

**Characteristics**

- . Suitable for all vertical applications (good shear)
- . Mounting of mirrors
- . Fixing of plastic trim
- . Mounting of nameplates (indoor and outdoor)

**Technical Details**

Total Thickness	1.635mm
Backing Thickness	
Tensile Strength	24n/cm
Elongation	235%
Temperature	-20°C - 70°C
Steel Adhesion	10n/cm
Dielectric Strength	
Colours	White

**Note**

Unless otherwise indicated, the figures above are average values and should not be treated at face value for specification purposes. The Company reserves the right to improve products, and any change in specification will result in a re-issue of the information sheet. Customers should satisfy themselves that the tape is suitable for their requirements whether after such modification or otherwise. Please check that you have the latest issue of the information sheet. All slitting and length tolerances are to British Standards, but other tolerances are available by request.
